

PERSONAL AND SOCIAL

Mentionings of People as They Arrive and Depart.

W. H. Port of Susanville is in town. Senator Stewart was in town yesterday.

W. E. Sigler is down from Beckwith.

C. M. Sain came down from Carson yesterday.

Miss Henderson of Alturas is visiting Reno friends.

Sam P. Davis returned to Carson yesterday morning.

Mrs. Roberts of Plumas Junction is a guest at the Palace.

Robert Cozzens of Olinghouse Gulch was in town yesterday.

Will Young, buyer for J. G. Johnson, is up from the city.

Dr. Ascher of Lovelock was a visitor to Reno yesterday.

Engineer Bryant of the Wedekind mine spent yesterday in Reno.

Dr. Reid is spending a few days in San Francisco and Sacramento.

James Dunn, the well known sheep man, is down from the north.

Mrs. J. P. Sweeney has returned to Carson after a visit to this city.

Jesse Bell of Arizona has arrived and will visit his father, C. P. Bell.

Charley Watson of Tonopah was in Reno last evening. He was on his way to San Francisco.

W. H. Jackson, one of the well-known miners of Olinghouse gulch, spent yesterday in this city.

Football Game

Yesterday afternoon on the University gridiron a Down Town team defeated the High School team by a score of 12-0. The last half being extended fifteen minutes longer. Down Towns thereby scoring the second touch down and goal, making the score as stated.

Florence Hastings' dancing class for pupils, 13 years and adults, meets Friday at 3:30. Children's class Saturdays at 2:30 p. m., in Kindergarten hall.

Progress of the Geological Survey

L. H. Taylor, resident hydrographer, who has charge of all the United States Geological survey work in this State, was seen in his office yesterday by a Journal representative and queried regarding the progress of the government work in this State, particularly on the Truckee river.

Mr. Taylor said:

"The survey for the Truckee River High Line Canal is progressing well toward completion. This canal is to be taken out high up the river and follow the foothills around to the valleys to the north and northeast of Reno."

"These untitled valleys contain 75,000 acres of untitled ground capable of cultivation with irrigation."

"Within the next two months we will have all the data necessary to prove the practicability or impracticability of the canal project."

"If the cost proves to be not excessive I believe that work will begin on this irrigation project very soon. There are four corps of engineers now at work on the main line and its branches."

C. H. Fitch, typographer of the United States survey, is now in Reno and will make a detailed survey of all lands within the reach of this canal system that are susceptible to irrigation."

Is Making a Very Lively Campaign

Hon. C. D. Van Duzer, candidate for Congress, is making a lively campaign in Reno. He is addressing large audiences every evening and receiving the closest attention and most enthusiastic applause.

Instead of hiring a hall he addresses the people on the street corners and in business houses. The earnestness of his manner, the eloquence of his addresses and favor with which he is being received promise well for a big majority for Mr. Van Duzer in this city.

Kindly Disposed

For several years past there have been carpings at Reno from nearly all the State press, the only complaint being made was that this town is prospering and growing as it never did before. A refreshing item appears in the latest issue of the Elko Independent, which, in commenting on the passing of the ten thousand mark by this city, says: "The whole State is proud of Reno's growth."

Bought a Mill

Superintendent C. L. Crane has returned from San Francisco, where he went to purchase a large stamp mill for a mining property in which he is interested in California. It is the well known Honeyuckle mine. The owners are now all Reno men.

Political Meeting

Hon. H. F. Bartine will address the people of Reno and vicinity at the opera house Tuesday evening, October 28th, on the political issues of the day.

STANFORD DEFEATS NEVADA BY A VERY CLOSE SCORE

The University of Nevada met defeat yesterday at Palo Alto at the hands of the Stanford University eleven in a closely contested and hard fought game. Owing to inclement weather the game did not start until late, and, naturally, the young people of Reno, and some of the older ones, were decidedly "bug house." Crowds were gathered on the street corners and news from the game was eagerly awaited. The general feeling was that Nevada would win, but there were a number of conservative who pointed out how this was a consummation more devoutly to be wished than to be expected.

The Journal received no word from its special correspondent at the battle scene until 5:30 when the result of the first half was announced as resulting in Stanford's favor by the score of 11 to 0.

A little later The Journal, having queried the San Francisco Chronicle, got the reply announcing 11 to 5 as the complete score. But few of the people waited for this dispatch. The 11 to 0 proved a damper to their feelings and the crowd silently dispersed.

Mr. Bradshaw, The Journal's correspondent, sent the following detailed statement at 6:20:

The sawdust that had been placed on the muddy gridiron rendered the field fast. The game was called at 8:23.

Stanford won the kickoff and sent the ball to Nevada's 25-yard line. Nevada immediately adopted bucking tactics, but fumbled. Stanford had a clear field and made the first touchdown in 11 minutes. Nevada was somewhat disconcerted, but soon steadied down and played ball.

After Stanford kicked the first goal

the ball was kicked to Stanford's 10-yard line. There was a series of bucks and kicks. Stanford bucked over Nevada's line in 12 minutes, making the score 11 to 0. The goal kick proved a failure.

Nevada kicked to Stanford's four-yard line. O'Hara made a good tackle. Nevada attempted a place kick but failed. The first half, which lasted 25 minutes, ended with a score of Stanford 11, Nevada 0.

In the second half Nevada got down to business. Nevada kicked to Stanford's 15-yard line. Then the ball was punted back and forth across the field. Frisell carried the ball 7 yards in a buck. Nevada scored five points by a place kick.

Evans made a good tackle. Stanford lost the ball on Nevada's 15-yard line by a fumble. The game ended with the ball in play in the center of the field.

Score 11 to 5.

Stanford throughout the game relied on end runs. Nevada's line was weak and let men slow. The decisions throughout were fair. Stanford had several times to substitute men Nevada did not. No one was hurt. Nevada received splendid treatment.

Following was the lineup:

Nevada.	Position.	Stanford.
Meln	Center	Lee
C. Smith	Right Guard	Barnishel
McElroy	Left Guard	Jacobs
Riordan	Right Tackle	McFadden
A. Steckle	Left Tackle	G. Dole
Kearney	Right End	Clark
O'Hara	Left End	Wilbur
Leadbetter	Quarter	Bansbach
C. Steckle	Right Half	W. Dole
Frisell	Left Half	Smith
Evans	Full Back	McGilvery

Bob Fitzsimmons and His Entertainment

Bob Fitzsimmons and his company played last night before a good sized audience in McKissick's Opera House.

Bob is an all-round entertainer, and keeps in touch with his audience all the time. He has a fine singing voice, and provokes roars of laughter with his comical rendition of the song, "When He's Full."

One act reproduces the blacksmith shop he worked in in Australia, and to show the auditors that he has not forgotten his old trade, he makes a shoe and fits it to a horse. Another act reproduces his training quarters, and he boxes three fast rounds with his sparring partner, after which he does some remarkable bag punching, an art in which he surpasses the world. He throws out many clever hints concerning physical culture, which may well be taken seriously by his auditors.

The great scene of the play is that of the final act, which shows a vision his dreaming wife sees, in which the redoubtable Bob defeats his opponent. The illusion is carried out by means of life-sized pictures of the Fitzsimmons-Ruhlin fight, which is rendered from start to finish, including the knockout.

How to Get Rich

The Merchants' and Farmers' bank of this city has in The Journal this morning a large display ad calling attention to their new saving system. It would be well to peruse this announcement, and still better to take care of it. The old adage, "Take care of the dimes and the dollars will take care of themselves," was never truer than today.

Fusion forces should Sweep the Field

When the situation politically is looked over carefully it is difficult to see where the Republican can hope to gain any offices in this county. It is a known fact that the county is Silver-Democratic by a good majority, and the men that have returned to the Republicans can be counted on two hands. There is one thing commendable among the Republican hosts, and that is the fact that it is never discouraged and is willing to go up against a game with odds against them. They make a fight like a party that has a sure thing in sight, and never overlook a vote. This is one reason that the Fusion force should endeavor to keep their majorities, and keep the enemy from stealing any march on them. The fact that the Fusionists have a majority seems to detract from their vigor in the fight, as they figure a victory without much effort, says the Appeal.

In the State ticket there should be an increased majority, from the evidence introduced by the Silver party. This evidence is the economical government that has been maintained by them during their terms in office. A saving to the State has been made in every office in the State government, while the State rate of taxation is lower today than at any time in the history of Nevada. This record should add votes to the members that are running on the Fusion ticket, as it is chiefly composed of members who have records to show the people, as they have served for a test of years. Good government and low taxation is the cry that the people have been using for years, and the Silver forces have given them the government that was asked.

In county affairs the same condition exists. At the present time a great many improvements are being made on county property, in fact, the greatest expenditure that has been made in years. This expenditure was made possible by the economy of the Silver Commissioners when in power. Through their careful work, strict economy and business methods, the county treasury was raised from a script basis to one of cash on hand, and it is the cash on hand that is being expended by a Republican board today. The Silver Commissioners took the helm of affairs when this county was in a bad way financially, and the business at a low ebb. They righted the ship, pumped out the debt, incurred by former Republican administration, and gave the taxpayers a service of economy that made its treasury warrants worth face value.

The same kind of men are now presented to the voters for their consideration. If the people wish a full treasury, lower taxes and good county government, they should vote for the Silver party County Commissioners.

In every other office on the ticket the same condition exists. All of the offices in the care of the Silver party have been used with a business integrity that should make votes for the party. This party is pledged to economy and its record shown that the pledge is made with the intention of carrying it out.

Under such conditions it does not seem to reason that the party in the majority will elect a ticket that is nominated by the other side.

Should the Republicans win any portion of the ticket, State, legislative or county. It will be done by the aid of the Silver-Democratic voters.

Gave Him the Horseshoe

Bob Fitzsimmons presented the horseshoe he made at the theatre last night to T. H. Gormley, night clerk at the Palace hotel. As Mr. Gormley is a great admirer of "Lanky Bob," he greatly appreciates this token.

Railroad Extension Has Been Deferred

J. G. Phelps Stokes of New York City, son of the great financier, tarried in Reno yesterday on his way from Tonopah. Mr. Stokes is here in the interests of several eastern companies, one of which owns the Nevada Central railway.

Mr. Stokes was asked if the repeated rumors to the effect that the Nevada Central was shortly to be extended to Tonopah was true.

He informed The Journal interviewer that his people, The Nevada Company, had carefully canvassed the situation and would not make any move in that direction, at least in the immediate future. He said, however, that another company was figuring on this proposition.

Should the Nevada Central be extended to Tonopah Reno would lose the bulk of the trade with that camp which this city now enjoys. Practically all the traffic with that camp from the east would go by way of the new line. Hence Mr. Stokes' assurance should be good news for Reno and all Western Nevada.

Century Club Will Entertain Teachers

At a meeting of the Century Club, on Friday last, a motion to entertain the teachers during institute week met with enthusiastic favor.

This is the second prominent organization of Reno anxious to bestow complimentary attentions upon the teachers; the Wheelmen having already proposed to give them a grand ball.

This is as it should be. Reno makes a business of getting the best teachers in the State, and then treats them royally to show her appreciation.

True it is that no class of professionals in any community is entitled to more honor and respect than are those who train the minds and mold the lives of the coming men and women.

Solid Comfort

The Palace Dry Goods & Carpet House offers this week elderdown jackets, flanellette wrappers, elderdown wrappers, rainy day skirts and in fact all kinds of cold weather articles. They are headquarters in coats, ready-made suits, skirts, waists, dress goods and in fact everything in the dry goods and fancy goods line.

Visited the New Camp

Dr. Donohue has returned from a trip to Donnelly Mountain and will resume his practice of Osteopathy. Dr. Donohue's health was greatly improved by the trip and he is very favorably impressed with the new camp.

Water Project Has Not Been Dropped

Carson, Nevada, October 24, 1902.

Editor Reno Journal:

The article appearing in your paper this morning regarding the Tonopah Water & Power Co. was copied from the Tonopah Bonanza. It is queer what that paper will say with little foundation. The facts of the case are we have had a force of surveyors between Twin River and Tonopah for ten weeks. They recently finished the final survey of pipe location as well as the most extensive and elaborate map of Tonopah ever made, embracing every street and byway in the town and all the details for reservoir sites, town piping and everything connected with the enterprise needed in this line. At completion the force were discharged and the Bonanza remarks that all of the operatives on the Twin River-Tonopah project had been called off, adding the choice bit of wisdom "it may be remembered that we have never endorsed this scheme." This "scheme" is in fact the first water scheme which the Bonanza has not endorsed and is the only one ever suggested promising what the camp needs—a good supply of good water. We now have our bill of pipe and know what to issue for specifications, which has required months of time and about \$25,000 in money. We are going ahead as fast as it is possible, an undertaking of this character involving engineering ability of the highest order and attention to details of the most careful kind. We have one profile of the pipe line 75 feet long giving the direction and elevation of every foot of pipe the entire 60 miles.

We are sorry the Tonopah Bonanza "devil" (Billy, we understand is away electioneering) does not endorse our scheme, but really we never asked him for it and respectfully refer him to the files of his own paper where he has endorsed some twenty or more water companies which were to have water flowing into Tonopah "within 30 days," but which have fallen by the wayside.

ASSESSMENT NOTICE

ORR WATER DITCH COMPANY—Location of property, Washoe county, Nevada; place of business, Reno, Nevada.

Notice is hereby given that at a meeting of the Board of Trustees of the above named company, held on the 11th day of October, 1902, an assessment (No. 77) of three dollars (\$3) per share was levied upon each and every share of the capital stock of said company, payable immediately in United States gold coin to the treasurer, the Washoe County Bank. Any stock upon which the assessment shall remain unpaid on

Tuesday, November 11, 1902, shall be deemed delinquent and will be advertised for sale at public auction, and unless previously paid will be sold by the secretary at the office of said company on Thursday, the 11th day of December, 1902, at 2 o'clock p. m. of that day, to pay such delinquent assessment together with costs and expense of said sale.

By order of the Board of Trustees,
C. GULLING, Secretary.
Reno, Nev., October 11, 1902.

Something About the National Finances

Editor Journal—How did the foreigners settle the \$2,800,000,000 balance of trade which Mr. Farrington says was in favor of the United States during the past five years? It was not paid in gold, for the net imports of gold for the past five years in less than ten per cent of that amount, and as the net exports of silver was equal to about one-half the net imports of gold, it leaves less than five per cent that we actually received in gold to be applied on the favorable trade balance. How was the balance paid?

A few months ago when the export of gold was assuming very large proportions, the New York Tribune attempted to explain how it was that in the face of a trade balance of \$500,000,000 or \$600,000,000 a year, that the foreigners could also call on us for gold, and in substance offered the following solution. The Europeans have very large sums invested in American securities of various kinds, including bonds, mortgages and stocks, and as dividends have increased of late years it takes more to settle this account with the foreign investors.

Mr. Editor, that solution offered by the Tribune states the case in a nutshell. We are so heavily mortgaged to Europe that it takes a trade balance in our favor of at least \$500,000,000 per year to pay the interest and when it falls below that sum we make up the deficiency with more interest bearing securities, and we all know that this method of paying interest is the same as compound interest and must ultimately result in repudiation or disaster.

To show the tremendous absorbing power of money placed at compound interest we will start with the small sum of one cent at the birth of Christ to be paid in gold in the year 1900, together with interest at the rate of six per cent per annum, interest compounded annually. Gentle reader it takes more than forty-six figures to represent the amount in dollars and is almost incomprehensible, but when we reduce it to big chunks of gold we begin to realize its vastness. It would take more than ten million chunks of solid gold the size of this earth to pay the interest accumulations. X.

ADVICE OF OUR CHIEFTIAN
BRYAN has twice received the largest majority ever given by the voters of Nevada to any candidate for President of the United States. He is as popular now as in 1896 or 1900 and possesses the confidence of the people as fully as in either of those years. Although not a candidate he is as earnestly devoted to the cause now as then, and there is not a voter in the State of any party, who in his heart questions the sincerity of his utterances. There is not a Democrat or Silver Party man in Nevada who would not act as readily upon his political advice as upon that of any man now living within the boundaries of the American Republic. Mr. Bryan in his speeches at Virginia City, Carson and Reno last Friday, most earnestly and impressively urged the voters of Nevada to support Francis G. Newlands for United States Senator and Clarence D. Van Duzer for Representative in Congress at the ensuing election. He admonished his hearers that the gravity of the situation demanded the election of men of their political views at the present crisis. It was not with Mr. Bryan a question of candidates but of the principles they represent. We are confident that the Democrats and Silver party men of Nevada will to a man heed the advice of the great advocate of the rights of the common people and the recognized Chief of the anti-Republican forces in these United States of America. We are confident that they will in every county in the State cast their ballots as a unit for the Fusion legislative ticket and stamp an X in the margin opposite the name of C. D. Van Duzer.

A FALSE REPORT
THE Independent interviewed Congressman Newlands today as to the report published by some of the Republican papers that Hon. Charles A. Towne intended to make five Republican speeches in this campaign. Mr. Newlands said that the rumor was similar to that circulated shortly after Mr. Towne's success in the Beaumont oil fields that he had abandoned bimetalism, a report which Mr. Towne immediately and vigorously denied.

"Why," said Mr. Newlands, "I have received several letters from Mr. Towne within the last two months. He had proposed to visit me the latter part of October and to make several speeches for the Fusion ticket in the vicinity of Reno. His letters are full of interest in the campaign, both National and State, and he has inquired particularly about my contest here. He would have been here by this time to speak on the Fusion platform, had it not been for the recent fire in the oil wells at Beaumont, which compelled his presence there. His letters to me express the greatest disappointment that he cannot carry out his intention of coming to Nevada and taking the stump for the Fusion cause. He is particularly interested in my success."—Elko Independent.

OUR STATE TICKET
ALTHOUGH some of the State offices do not possess the political significance of others, even the most independent voter of any political organization recognizes the wisdom and policy of giving the preference to the candidates of his own party, everything else being even. In this regard we do not fear comparison between any candidate on the Fusion State ticket as the Republican nominee for the same position. There is no good reason why any Democrat or Silver party man should ignore any candidate on the Fusion State ticket. As Mr. Bryan declared in his speech Friday evening. The silver producing State of Nevada cannot afford to elect a Republican to any State office.

SUPPOSE for the sake of argument that "Silver is dead." No one will deny that its "death" was the greatest calamity that was ever experienced by the State of Nevada or that its slayers were not the worst enemies that were arrayed against our Commonwealth. Suppose, our Republican friend, a man killed your brother in cold blood. You cannot bring that brother to life again, but is that any reason why you should take his murderer to your breast, condone the bloody deed, make him an honored guest at your home and install him as one of your family circle?

THE Carson News says "Bryan has come and gone and left only a memory." Well, a memory is a pretty good thing to leave, if it is a pleasant one. We know of some Republicans who have made public speeches in Nevada, who were forgotten in less than twenty minutes after they left the platform. Mr. Bryan will live in the memory of the people of Nevada until gratitude is extinct in the human breast, and admiration for a fearless champion of the toiling masses is no longer a sentiment in the hearts of the "common people" of the battle-born State.
THERE is only one way to vote for Francis G. Newlands for United States Senator. That is to vote for

the Fusion candidates for the Legislature—Nate W. Roff; J. E. Souchereau, J. F. Crosby, P. A. McCarran, W. D. R. Graham, H. R. Cooke, Peter Burke and A. D. Griffin. Don't write Mr. Newlands' name on your ticket, or it will be thrown out.

UNITED STATES SENATOR Wm. M. Stewart is directing the Republican campaign in this State and it was at his command that Judge Hawley was placed before the people as a candidate for United States Senator. This is another fact that is never alluded to by Republican speakers or the Republican press. "Silence is golden" with them.—Gardnerville Courier.

WONDER why the Republican organs that harp upon the few Democratic State Senators who voted against the Union labor bill, and who are not candidates for re-election, have nothing to say about the candidates of their own party, who voted the same way and are asking the people of their counties for the privilege of doing it again at the next session of the Legislature.

THE JOURNAL has made special mention of each of the candidates on the Fusion ticket, Washoe county and Reno Township tickets. We will now lump the whole business and give as our honest opinion that no voter will make a mistake by casting his ballot for every nominee of the Fusion parties, from Governor and Congressman down to Constable. They are all good men and true.

THERE have been three rises in the price of newspaper within the last three months. It is now nearly double what it was two years ago. We congratulate our Republican contemporaries upon the "prosperity" they, in common with us, are enjoying through the liberality of the Republican trusts.

IF the Republican nominees for State Senators oppose Stewart as some of them professed to do four years ago, why don't they answer candidly the simple question, "Will you pledge yourself not to vote for Wm. M. Stewart for United States Senator in 1904?" A single word "yes" or "no" would settle that question at once.

IF THE people of Nevada wish to repudiate the silver question, and tell the eastern people that we do not need our silver mines legislated for, just vote the Republican legislative ticket. It will tell the story to the wide world.—Virginia Report.

THE White Pine News announces the renunciation of Republican principles. The stockholders of the paper are liberal minded men and could not stomach the rot published under a Republican management. Hereafter the paper will be independent.—Wells Herald.

THE rate of taxation next year will be 70 cents. It was not the Republican party that made this reduction possible.

Nevada Land Selected Under Carey Act W. C. Williams Will Make a Mill Run

Editor Journal—An article headed "The Carey Act" appeared in the Reno Gazette of the 22nd inst., which is untrue in many particulars. The fact is that prior to the passage of the Act of the Legislature, approved March 6, 1901 no selection could be made by the State under the Carey Act for the simple reason that no State or county officer had authority to comply with the requirements of the General Land Office and Department of the Interior. Since the passage of the State Act of March 6, 1901, over 200 applications for lands under the Carey Act have been made. These applications cover between 30,000 and 40,000 acres of land, and the Register and Receiver of the United States Land Office made the selections for the State. Very many people who control water for reclaiming desert lands prefer to enter the lands under the General Desert Land Act which allows each applicant 320 acres, while the Carey Act obligates the State to sell no one person more than 160 acres of desert land.

The General Land Office has rigid regulations concerning the Carey Act, every one of which must be complied with in detail, and it is a useless expenditure of money on the part of applicants unless they comply with each and all of the requirements.

In this connection I desire to state that the Secretary of the Interior has withdrawn from entry under the Carey Act 114 townships, extending westerly from the east side of the Sink of Carson to the State line, and also several townships northeast from Reno.

In December, 1900, several of the State papers kindly published free of charge a letter from this office showing why the Carey Act was inoperative. The Carey Act was intended to give the mid States opportunity to reclaim large tracts of desert lands, and dispose of them to actual settlers in tracts not exceeding 160 acres each, as individual settlers can each enter 320 acres of desert land under the Act of Congress of March 3, 1877.

By publishing this you will correct false impressions concerning the Carey Act and greatly oblige,

Yours respectfully,
E. D. KELLEY, State Land Register

Notice to Stockholders

Notice is hereby given that a meeting of the stockholders of the Weepah Gold Mining Company will be held in the Drexel building in Philadelphia on the 26th day of December, 1902, at 1 o'clock, for the purpose of voting for or against the decrease of the capital stock of the company from 3,500,000 shares of the par value of \$1 each to 1,500,000 shares of \$1 each by the re-issuance and cancellation of 2,000,000 shares and the proper officers of the company are hereby authorized and instructed to do everything necessary to carry this resolution into effect.

AETNA MINERAL WATER

(Bottled at Aetna Springs, Napa Co. Cal.)

There are so many kinds of mineral waters on the market, and all claiming to possess healthful properties, that it is difficult for a person to make a choice.

When we consider, however, that AETNA has stood in the front rank for years, has been a favorite in households as well as public resorts, and has been recommended by eminent physicians, who use it themselves and prescribe it for patients, there should be no question in the matter of selection.
